LWHS District Will Make Money On Building Bonds

The Lincoln-Way high school district will make money as a result of its recent sale of building bonds.

The board sold three-quarters of a million dollars of bonds to finance a new addition to the school. The money will be available shortly but will not be needed until work is started on construction. That will be several months yet.

Ordinarily this would be sizeable expense because the interest begins on the bonds when the money is received.

The Lincoln-Way district will make money because the board had made arrangements with a firm specializing in this field to deposit the bond money in insured saving and loan companies. The district expects to get about 4.5% in interest. It will be paying 3.01% so it will be making about 1.5%.

Since the board has \$750,000 to invest and deposits are insured up to \$10,000, the money will be placed in 75 saving and loan companies. The board will not have to pay any service charge for the placement of the money, according to Supt. A. Hunter Chapman. The firm placing the deposits gets its fees from the saving and loan firms, he said.

In the past school districts were restricted to investing bond money in federal govern-

ment paper. Now the law is changed to permit making deposits with insured depositories.

The state treasurer plans to make deposits in 1,000 banks--time deposits--and as a result the state will receive some 4% interest.

4 Take Petitions For L-W Board

Next Wednesday, Feb. 27, will be the first day of filing for candidates seeking election to school boards. So far four persons have taken out petitions indicating they will seek places on the Lincoln-Way high school board.

There will be three places to be filled on the board this spring, the terms of Albert H. Krusemark, of Frankfort, president, of the board and a member since the district was organized; Lawrence Schleeter, of Manhattan, and Elias Brown, of Mokena.

Brown and Schleeter have taken out petitions and otherwise indicated they will seek re-election. The other two have taken out nominating petitions were Wendell Morrison, a Frankfort lumber dealer, and Dr. George E. Morgan, a dentist, who resides at 133 Cooper st., New Lenox, and has an office in Frankfort.

Find Long Name Bacteria Made LW Students Ill

It was the turkey and a long name bacteria.

Laboratory tests conducted by the state health department at the request of its Will county counterpart disclosed that that illness that struck some 200 students at Lincoln-Way was attributable to the turkey served in the school cafeteria Jan. 29. The bacteria responsible is known as Type A clostridium perfringens, and is a rarity, people will be glad to know. If the health people arrived at any conclusion as to how and where such bacteria invaded the turkey it was not included in the letter delivered to Supt. A. Hunter Chapman.

The letter did say that only a few such cases have been reported in the United States and not great many abroad. More cases have been found in Great Britain, it was said, than elsewhere.

In the United States 20 cases were reported from 1953 thru 1958.

The presence of this bacteria in food brings on fever, nausea abdominal cramps and diarrhea. It is not lethal and victims generally recover in 24 hours, health authorities declared.

The turkey served at the school were received from government surplus. They were frozen when they arrived and they were roasted at the school. According to the cook books one maintains a temperature of around 325 in roasting a turkey and the process takes hours so if the bacteria was on the turkey before it was frozen and was still going strong after prolonged high heat then Type A clostridium perfringens is a tough as well as a rare species, it was pointed out.

Frankfort Seeks More Toll Free Phone Service

Better telephone service for Frankfort is one of the aims of the village board there.

At the meeting this week board members agreed that it was all very fine to be able to dial direct to all parts of the United States but they thought it would be more to the point if Frankfort telephone subscribers could reach out further than Mokena without toll.

About two years ago a petition was filed with the telephone company from Frankfort asking that it be added to the list of communities that now have toll free connections with Joliet and neighboring communities.

It is understood that this petition has reached the Illinois commerce commission but what its status is now is something the Frankfort village council wants to know.

Mayor George Sangmeister said he would find out, if possible, what the situation was. Mokena subscribers can talk with Frankfort and New Lenox without paying toll, but Frankfort's only free outlet is to Mokena.

Will Elect 3 To Frankfort School Board

Little interest has been displayed to date in the coming school board election at Frankfort, if the fact that no nominating petitions have been taken out in any criterion.

There are three places to be filled on the board this year, the terms of Walter Haakinson, Wilbur Hossbach and Paul Lambrecht expiring in April. As of Tuesday none has made any announcement of candidacy.

It was pointed out that the first day for filing is still some time off -- Feb. 27, but it is usual that some petitions have been taken out a couple of weeks prior to the filing date. Petitions may be obtained at the school office and they may also be filed there between 9 a.m. and 4 p.m. Mondays thru Fridays. Since the school office is not open on Saturdays the last day of filing will be Friday, March 22, at 4 p.m., it was announced.

The school election will be held April 13 with the polls open from 12 noon to 7 p.m.

Weitendorf Voters To Discuss School Merger

There will be a meeting at Weitendorf school Monday night, Feb. 25 to discuss the possible annexation of that district, No. 154, to Frankfort and the Mokena grade school districts.

It has been proposed that that portion of the Weitendorf district south of U.S. 30 be joined to the Frankfort district while the part north of the highway be made a part of the Mokena district.

A portion of the area north of Route 30 has already been annexed to the Mokena district.

There are currently 43 pupils in Weitendorf school. Thirty of these reside in the section that would go to Frankfort and the others would be enrolled

at Mokena.

If Weitendorf district is to be divided between Districts 157-C (Frankfort) and 159 (Mokena) two petitions would have to be presented to the Will county board of school trustees. One petition would have to carry the signatures of at least two-thirds of voters in the district south of U.S. 30 and two thirds of the voters in the territory north of U.S. 30.

Then after a public hearing the trustees would either grant or deny the petitions. If the petitions were approved District 154 would be divided between Districts 157-C and 159.

Last year the educational tax in the Weitendorf district was 67 cents per \$100 equalized

assessed valuation. It is expected that this year the rate will be approximately 85 cents, according to information compiled in the office of County Supt. Verne Crackel.

It was believed -- and these figures are approximations Supt. Crackel emphasized -- that with the assessed valuation of Dist. 154 south of U.S. 30 added to that of Dist. 157-C the school rate there would drop from \$1.33 to about \$1.07. That would mean that the people who have been in the Frankfort district would pay about 26 cents less per \$100 while the people in that part of the Weitendorf district would pay about 22 cents more.

It was expected that the peo-

ple north of U.S. 30 who would become a part of the Mokena district would pay about 28 cents more per \$100 while those that have been in 159 would pay about 10 cents less. It was estimated that with the valuation thus added to the Mokena district its educational tax rate would run about \$1.13 instead of \$1.23.

The Weitendorf district was organized about 11 years ago. It was a merger of the Hinspeter and Cleveland school districts. The Cleveland school was moved from its location on the north side of U.S. 30 just east of Wolf rd. to the present site where it was joined to the Hinspeter building and a room added.

If a housing project develops along Wolf road north of U.S. 30, as is spoken of, the Weitendorf district would find itself confronted with the problem of enlarging plant and teaching staff, it was pointed out. And on top of this would be the problem of transportation. It was pointed out that traffic on U.S. 30 is continually increasing and crossing it on foot or by car is a considerable risk.

The directors of the Weitendorf district are hopeful there will be a large attendance at Monday night's meeting as all the aspects of the proposed annexation of the two neighboring districts are to be discussed in full detail.

Village Candidates Must File Petitions By Monday

Next Monday, Feb. 25, is deadline for filing nominating petitions for village offices. By the time that date arrives it is expected there will be contests on in full swing in area communities.

At Mokena only three individuals had filed for the three places for village trustees, Fred Steinhagen, Rudolph C. Engelhardt and Ray Bisgrove, until Tuesday of this week. These three had filed individually several days ago.

This Tuesday a petition setting up a slate under the appellation of Independent No. 1, was filed in the office of Village Clerk Alvin Sorensen. On the ticket are Marvin Weitendorf, an employee of American Oil Co., Gary Chase, Rock Island station agent, and Hans Mueller, an employee of the Caterpillar Tractor Co.

At Frankfort there are three that had filed for the three places open up to Tuesday, Clyde Reils and John Topp, incumbents, and Robert Dean, drug-

gist. Wayne DePorto, also an incumbent, has his petitions ready but had not filed up to Tuesday noon.

There was talk that several candidates may enter the lists.

At New Lenox there were two filed for village president, Eugene Hunt and Robert C. Fahrner; one for village clerk, Robert J. McCleary, the incumbent, and four for trustees, Robert Bishop, Ben Thomas, Eugene (Steve) McGowney, incumbent, and Gerald Roessel. This was the list as of 1 o'clock Tuesday afternoon.

There are three trustees to be elected in addition to village president and clerk. It was reported last week-end that the present mayor, Stanley Gilmore would be a candidate for reelection as would the trustees whose terms expire, Chester Bowman, Evans Drotts and Eugene McGowney. But as of Tuesday McGowney was the only one of the group that had filed.

Will Try New Process To Free Water Of Rust

Iron in the village water supply has been a problem at Frankfort for many years. The board of trustees took action Monday night which they hope will remedy the condition. Alexander Chemical Co., Chicago, offers a chemical which it claims will prevent the iron from staining laundry or plumbing fixtures. The chemical is added to the water system by means of a pump. The Frankfort board is prepared to buy two of these pumps, one for each well, with the necessary valves and other equipment for a total of around \$600 but first would like to have a representative of the company explain the proposal in person. Iron filters are quite expensive, it was explained.

The village of Orland Park has employed this system for taking care of its iron problem for many months and finds it quite satisfactory. Trustees Clyde Reils, and John Topp and Village Clerk Walter Pfaff reported to the board Monday night following a visit to Orland.

They said that officials there at the village hall informed them that nothing had had to be done to the plumbing fixtures in the hall to remove rust stains since the D-Solvent was added to the water supply. Frankfort housewives have been complaining about the rust in the water there for longer than board members care to remember. Some years ago the village did turn to another chemical firm in an effort to cure the condition but without success. The Trustees were heartened by the committee's report on their findings at Orland Park and it was decided to give the method a trial. There is a guarantee with the purchase of the equipment and the chemicals, according to word received from the company, that if the process fails the buyer's money will be refunded.

Two ordinances were adopted by the village board this week. One of them provides

for snow removal by banning parking on village streets following a two-inch snowfall. The ban would be effective at 8 p.m. on the day of the snowfall and remain in effect until 8 o'clock the next morning. This would give village crews opportunity to get the streets plowed out before they become packed and the snow gets too deep. The two inch measurement of the snow is to be taken at Kansas and Hickory streets. Car owners that fail to move their cars will be subject to fines of not less than \$5 nor more than \$50, according to the ordinance.

The other ordinance adopted amends the measure dealing with dram shops. It provides for two classes of licenses. Class A covers the retail sale of liquor. The number of such places shall be limited to one for each 800 residents as counted in the last official U.S. census, but there is to be no less

Publicize New Teaching Methods At Lincoln-Way

The library of Lincoln-Way Community high school, in publicizing its initiation of individual study thru programmed learning (using the TMI-Grolier teaching machine and other related devices), displayed the bulletin board pictured above for the viewing of all students to that area. The creation of the board was thru the combined artistic talents of Peggy Schroeder, sophomore, and Charles Immorino, junior.

Programmed individual study is provided in the area of mathematics, chiefly, with some science and English included; other subject area materials will follow. If a student should elect

to review and enrich his knowledge, for example, in first-year algebra, he can, without assistance from the librarian, withdraw graduated learning material from the vertical files and within the confines of the library proceed to move from level to level in his learning. He can, at will, check his answers and progress.

This self-tutoring device is not a part of the compulsory training in subject areas, but students are encouraged to take advantage of its merits, thus more thoroughly preparing themselves for proficiency in any given field of study.

Airport Plan Up For Discussion Monday

There will be a special meeting of the Frankfort village board and planning commission at the village hall next Monday night, Feb. 25 to discuss the proposal for establishing a commercial airport south of the village along Center road.

Three landowners in the vicinity, Frank Fleck, Wilbur Hossbach and Oscar Rheinwald appeared before the village board at its meeting Monday night to ask the village to intervene.

Fleck said that their attorney Francis J. Loughran of Joliet, is to ask for a rehearing of the case by the state aeronautics commission, and he is seeking to recruit opposition to the project if the hearing is granted. They claim that the presence of planes flying about the area

is unsafe and will depreciate property values. Those favoring the airport say it will aid in developing the area.

Hossbach claims that the reason for the move of the airport to Frankfort lies in the fact that Will county has no regulations governing airports as is the case in Cook county.

The meeting next Monday night is open to the public.

Board members told Fleck Monday night that the village was not apprised of the hearing on the applications for a permit to operate an airport until after it had been held. Trustee Clyde Reils said he would like to know what the public thinks about the proposed airport.

Sandburg 1st In District Mat Meet LW Is Third

BY SANDRA GRAY

Lincoln-Way finished third in the district wrestling tournament at Carl Sandburg high school Feb. 15-16 and two of its team. Ray Jast and Jim Hunniford will compete in the sectionals at Thornton Frct. North tomorrow and Saturday.

Carl Sandburg finished first in the district, taking five firsts and having six boys wind up in second place.

All first and second place winners are eligible to compete in the sectional this weekend.

Jast was the only Lincoln-Way competitor to take a first. Jast won the 95 pound class. Hunniford was second.

Winning firsts for Sandburg were: James Semets (133); P. Rodwick (138); A. Bulow, (165) David Johnson (180) and L. Grossman, heavyweight, Plac-

ing second for Sandburg were Tom Haislet, Bob Hunnewell, Frank Wolff, John Capodice, P. Bellone and F. Blaha.

Schools participating in the district meet besides Sandburg and Lincoln-Way were Bremen, Naperville, Oswego, and Tinley Park.

Naperville wound up in second place in the meet with four victories: Philpot (120); Schum (127); Kittle (145) and Freidrick (154).

Oswego with two winners, Eberhard (103) and Jarman (112) wound up in fourth place; Bremen was fifth and Tinley Park, sixth.

In Winning last match at the district Lincoln-Way's Jast scored his 18th victory, tying the school's record for the most wins of a season by a sophomore which has been held by Cliff Cheatwood.

Board Considers Raising Starting Pay To \$5,200

The Lincoln-Way high school board is now considering raising the minimum pay for teachers from \$5,000--the scale now in effect--to \$5,200 a year.

A committee from the board has been looking into the situation and has recommended this step. If this is adopted by the board, and indications were that it would, the school will be in a stronger position to attract good teaching talent, it was pointed out.

A comparison with other high schools in the region show that Lincoln-Way's salary scale has improved considerably and if the \$5,200 minimum is put into effect the local institution should be able to become selective.

Minimum salaries paid this year in other schools in the suburban area range from \$4,700 in the Kankakee unit district

(which includes grades) to \$5,400 at Reavis, a wealthy district.

There are two schools with the same minimum as Lincoln-Way this year--\$5,000: Bloom at Chicago Heights and Lemont. Having a starting salary of \$5,100 are: Argo, Evergreen Park, Lockport, Oak Lawn and Thornton Fractional.

Sandburg's minimum salary is \$5,150.

A minimum of \$5,200 is being paid by Joliet; Blue Island; Bremen; Rich and Thornton Twp. (Harvey). At Homewood-Flossmoor the starting salary is \$5,300; at Crete-Monee, another unit district, the minimum is \$4,800.

Increases in the assessed valuation has placed Lincoln-Way in a stronger financial position than it has had for a number of years.

CHEVROLET TRUCK QUALITY

You can see the difference wherever you look

If you believe various makes of trucks are pretty much alike, you aren't doing justice to your pocketbook. There are differences.

A Chevrolet truck welcomes comparison. Look at the little things on it—latches, hinges, stitching in the upholstery. Notice how strong the tailgate is, the rubber encased chains that keep it from sagging.

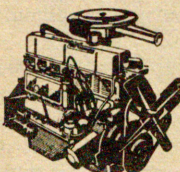

The body floor is made of select wood to eliminate the rust problem and give you better footing. The lower

side panels are double-walled; you might dent the inside but it won't show through.

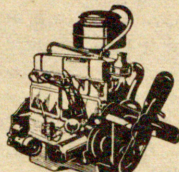

Chevrolet designs suspension systems to fit your need. The light-duty type is strong on comfort. Another kind for heavier trucks stiffens up as you increase your load and vice versa. Make sense?

If you are going to need a new truck this year, you should look at the quality Chevrolet has to offer. May we bring over a new '63 so you can examine it?

2 NEW 6-CYLINDER ENGINES

New High Torque 230-cu.-in. Six is lighter but more powerful than its predecessor. It is standard in Series C10 through C50 models.

New High Torque 292-cu.-in. Six—most powerful truck 6 Chevrolet has ever built! Standard in Series C60, optional at extra cost in lighter models.

Mystery Bequest Left To State

A check for \$4,000, left to the
state of Illinois by a Swedish
laborer, the late Alex Newburg
of 610 W. Madison st., Chicago,
has been turned over to Michael
J. Howlett, state auditor of pub-
lic accounts by William G.
Clark, attorney general.

Newburg was born in Sweden,
Feb. 2, 1898. On Aug. 20,
1955 he applied for a group in-
surance policy of the health and
welfare department, Construc-
tion and General Laborers' Dis-
trict Council, AFL-CIO, desig-
nating the State of Illinois
as beneficiary.

On Oct. 15, 1962 he died in
Swedish Covenant hospital of
heart disease. The attorney
general instructed his assist-
ant, Jack Ruben, to collect the
death benefit on behalf of the
people of Illinois.

The check was drawn to the
order of Auditor Howlett by
the union's health and wel-
fare department.

Seek Senate Majority For Chicago In State Assembly

(CNS) Suit asking that a three-judge federal court be convened to declare unconstitutional the 1954 "Blue Ballot" amendment permanently giving downstate Illinois 34 out of 58 seats in the state senate altho Cook county has the greater population, was filed in U.S. District court Monday by eight officials of United Steelworkers of America.

The suit seeks to take advantage of recent federal court rulings that the United States courts may have this jurisdiction where no other state remedy exists.

The suit, initially assigned to Judge Richard B. Austin, charges the 1954 enactment is in violation of the federal and previous state constitutional guar-

anties of representation based on population.

Cited in it without comment is the 1954 ruling of the Illinois Supreme court, in Donovan vs. Holzman, 8 Ill. 2d, page 92, that the amendment properly designs Senate districts to be based on geography like the U.S. senate, while the House is based on population.

The suit asks that Gov. Otto Kerner and other state officials be enjoined from proclaiming any election results for the state senate under the present law, that the amendment be declared unconstitutional, and that the court retain jurisdiction until the senate, "freed from the fetters of the invalid law", properly reapportion itself.

As a reason for pushing the amendment through in 1954 was cited that then Cook county, already with a majority of the state's population in 1950 had only 19 out of 51 state senators, or 37 pct.

Now the suit points out, the situation is almost as badly unbalanced again, with population ranging from Dist. 1, covering Maine, Elk Grove, Leyden, Proviso, Oak Park, Berwyn, and Cicero townships, with 569,600 population, and Dist. 32, Hancock and McDonough counties, with 53,502 or less than one-tenth thous each has one senator. Other top ranking district are.

Dist. 41 (Will-Du Page cos.) 505,076 pop., 1,176 sq. mi. Dist. 52, Lake, McHenry, Boone 398,192; 1,351; Dist. 27 (upper north side of Chicago), 365,000 14.5; Dist. 4, (Niles, Evanston New Trier, Northfield & Wheeling twps., 337,100; area unknown.

The following computations are made as to the value of the votes of the eight plaintiffs compared to an average are and to a resident of the smallest (32nd) district.

Joseph Germano, 4534 Rose-

mont (10th), 86 and 27 pct.; John Alesia, 7414 N. Crawford, Skokie, (4th), 52 and 16 pct.; Joseph Cesario, 1836 Taft Berkeley (1st), 31 and 9.4 pct.; Leo Keefer, Waukegan (52nd) 44 and 13 pct.; Raymond Sar-

occo, 18544 Highland, Homewood, and Sam E. Perish, Kildare ct., Matteson (both Dist. 8) 73 and 22 pct.; Joseph Pochervina, 1514 Hosmer, Joliet (41st), 34 and 11 and Buddy

State Will Ask Banks To Bid On Deposits

State Treasurer William J. Scott has revealed details of a program which will put an additional \$250 million of state money into the Illinois banking system. Scott indicated that all of the more than 1,000 banks in Illinois will be invited to bid for the new money which will be deposited in six-month accounts.

Scott said that the four largest banks in the state -- Continental Illinois National Bank and Trust Company, The First National Bank, Harris Trust and Savings Bank and The Northern Trust Company -- all of Chicago, have already made bids and accepted deposits on a six-month basis at rates that will earn the state approximately 3 1/8% per year. Until the adoption of this program, these state funds would have been invested in U.S. Government securities, currently earning 3% or less.

"The placing of an additional \$250 million of state funds into Illinois banks should be of substantial benefit to the economy of this state. In addition, we will earn more money for the State of Illinois," Scott said. "Governor Kerner and Attorney General Clark have been informed of this plan and have indicated their approval."

Scott estimated it will take from 60 to 90 days to complete the program. When it is finished, there will be \$450 million of state money on deposit in Illinois banks for specified time periods. This total includes \$200 million presently on time deposit and is in addition to operating bank accounts

maintained to meet the day-to-day banking requirements of the State.

Scott announced last week that \$73 million previously deposited in 30-day accounts earning 1% are being transferred into 90-day accounts earning 2 1/2%. This shift from 30 to 90-day deposits will also result in additional earnings of over \$1,000,000 a year.

"All state deposits in banks are secured by Government obligations valued at not less than 110% of the funds deposited," Scott declared. "We will still have over \$100 million in highly negotiable short-term Government securities."

"While the immediate result of our new policy will be a substantial increase in revenue for the State of Illinois," Scott declared, "I feel that its overall effect on the general economy of this State will be of even greater importance. Additional deposits in our Illinois banks will result in the expansion of the economy of our state, bringing job opportunities thruout Illinois."

The Real Temptation

"Our temptations today are not those of the weak and the impoverished—they are the temptations that come to a strong and prosperous people who sometimes seem to forget that it was the simple fundamentals of hard work, thrift and investment which made them economically strong."—Herbert V. Prochnow, president, First National Bank of Chicago.

\$3.67 Per Cwt. Minimum January Base Milk Price

Dairy farmers who shipped milk to Chicago Order 30 handlers in January will be paid a minimum of \$3.67 per cwt, on base milk, with a 20-cent superpool included, and \$3.47 per cwt, on excess milk, Harry L. Edwards, director of marketing for Pure Milk Association, reported today.

The \$3.47 price of excess milk is the uniform blended price announced for producer milk under Order 30 in January. The \$3.67 base price is 13 cents lower than the January 1961 base price.

These prices are for milk of 3.5 percent butterfat test deliv-

ered to plants within the 55- to 70-mile zone. The differential for each one-tenth of one percent of butterfat above or below 3.5 percent is 7 cents per cwt.

January deliveries totaled 523,521,782 pounds. This was 1.6 percent more than for the same month in 1962.

Approximately 50 percent of total producer milk under Order 30 in January, this year, was used for Class I and Class II purposes.

Class I sales under Order 30 in January amounted to over 206 million pounds compared with just under 200 million pounds in December.

Out-of-market sales amounted to six million pounds in January.

The superpool addition of 20 cents per cwt. is the result of handler payment of a superpool premium of 58 cents per cwt. above the Federal order price on Class I (bottled) milk and a 20 cents per cwt. premium on the fluid portion of Class II milk.

A new 12-month superpool, effective Feb. 1, has been announced by Federated Dairy Cooperatives. This provides for a \$4.29 Class I price and a 20-cent premium on Class II milk used in fluid cream. A higher premium will be paid dairy farmers who supply the major portion of the Chicago market's bottled milk requirements. In addition, a 5-cent uniform premium will be paid to producers located within 70 miles of Chicago.

Shrine Circus Opens Feb. 27 In Medinah Temple

The 21st annual Shrine Circus will open next Wednesday night, Feb. 27 at Medinah Temple, 600 N. Wabash ave., Chicago, for an engagement that will end March 17.

The Medinah Shrine circus is an entertainment event that has drawn capacity crowds thru the years. Proceeds from the affair are used to support Medinah Temple's charities and activities.

The circus is produced by Polack Brothers and this year's show is virtually new and one of the greatest, it was stated.

Illinois CROP Goal For 1963 Is Set

The Illinois CROP goal for 1963 is a quarter of a million dollars. The goal was set at a recent meeting of the Church World Service - Crop Commission at Champaign, Illinois.

Said the commission chairman, the Rev. Mr. Robert Rosebraugh, \$227,600, worth of grain and cash was donated by the people of Illinois during the 1962 campaign giving Illinois the distinction of having the highest state total recorded in many years. The 1963 goal presents an even greater challenge. But the response to CROP in 1962 indicates that the goal may well be exceeded.

The collection of corn and soybeans will be emphasized throughout the 1963 campaign. Where gifts of grain cannot be given, cash in lieu of grain will be accepted.

The Sunday of Oct. 27 has been designated as CROP Sunday in Illinois. November is "Spare and Share thru CROP" month.

Winter Birds From Canada Are Seen In Chicagoland

ROBERT MANN

Conservation Editor
Cook Co. Forest Preserve
Feeding and watching birds in winter is a pastime or even a hobby enjoyed by thousands of people who make no pretense of being ornithologists. They have fun and learn a lot about birds. They learn how one kind differs from the others -- in habits as well as in appearance -- and that a bird may differ noticeably, in temperament or even in plumage, from others of the same species.

One of the fascinations in feeding winter birds is that each year is different from the previous one and it frequently evokes some surprises. There are varying numbers of the usual visitors -- bluejays, downy woodpeckers, cardinals, juncos, chickadees, etcetera -- but some winters you may have "aberrants": one or more holdovers of kinds that normally migrate southward in autumn -- such as the mourning dove, flicker, Carolina wren, towhee and brown thrasher.

And then there may be a winter when you see a flock of cedar waxwings, perhaps including a few Bohemian waxwings. Next year there are none of those but maybe an abundance of evening grosbeaks, or of purple finches, or of pine siskins.

Such irregular migrations, called irruptions, have never been satisfactorily explained. They are mostly peculiar to a few species of colorful birds that breed in the coniferous forests of Canada and Alaska -- members of the largest of all bird families which includes the grosbeaks, buntings, finches and sparrows. In addition to the evening grosbeak and the pine grosbeak described in bulletin No. 668, there are five species that also visit the Chicago region irregularly.

The Purple Finch is a sparrow-like bird that is not purple. The male is rosy-red, brightest on the head and rump, as if he had been dipped in raspberry wine. The female is brownish, heavily streaked, with a broad whitish line over the eye and, like most of her cousins, smaller than the male. Purple finches are seen here during most winters and sometimes in considerable numbers. They come readily to feeding boards where sunflower, hemp and millet seeds are available.

The world's largest siren is on the liner *Queen Elizabeth* -- it can be detected at a distance of 100 miles. . . . Over 2,000,000 Christmas cards go astray each year because of mistakes in postage or address. . . . A major league baseball club uses approximately 850 dozen baseballs in a season. . . .

Orland Boys Judging Team Places Third

Norman Strassenburg, leader of the Orland Boys 4-H Club, took two teams of three boys each, to the National Yorkshire judging contest and Type School. The team of Sam Bruno, Ronald Sons and Steve Koveikis, placed third in this national competition.

The other team from the Orland Boys 4-H Club was made up of Donald Kohl, Gary Andersen and Rodney Knieriem.

These boys are looking forward to the county judging contest to be held this summer, prior to the state competition to be held in Urbana, July 1, 1963.

4-H club members from throughout the county will be invited to participate in this judging contest.

These boys have received very good training at this meeting and will be all primed and ready to go on to further contests in the 4-H program here in Illinois.

Farmers Outlook Letter

BY L. H. SIMERL

U. of I. Extension Economist
The winter market for livestock has been about as was expected: Price for hogs and cattle have been a little lower than they were a year ago, while prices for lambs have been higher.

Park output in December and January apparently was about 4 percent larger than a year earlier. There was no great amount of holding of hogs until after January 1, probably less than the year before. Beef output was about the same in the two months as it was a year before. Here again there is no evidence of delayed marketing.

Broilers. Supplies of broilers apparently were 10 to 15 percent larger than in the winter of 1961-62 and were that much above the previous record for the season. Broilers thus provided strong competition for pork and beef.

Broiler supplies normally reach their annual low at the end of the year and then begin to increase in January. While supplies in recent weeks have been at a record level for the season, the increase has been less than in either of the past two years.

HOGS. Hog prices have been unusually stable for 35 months, with barrows and gilts usually selling for \$16 to \$18 at terminal markets. They may decline to slightly lower levels in the next 90 days or so. Chief bearish factor in the outlook is that the December 1 pig crop report showed 7 percent more pigs under three months of age than in the year before. The unusually severe winter probably delayed marketing of

some hogs. The effect on the demand for pork is not known. The weather may have kept some shoppers at home for a few days. But cold weather is supposed to whet the appetite for pork.

CATTLE. Prices of Choice cattle have declined about \$4 since last November. There is no guarantee that they will not decline further. Farmers had 12 percent more cattle weighing 700 to 900 pounds in feedlots on January 1 than they had the year before. And they had 15 percent more weighing 500 to 700 pounds. The heavier of these cattle should be reaching market condition soon.

The unusually cold weather this winter reduced rates of gain and thus delayed marketing of some cattle. This factor also points to some increase in marketings (compared with a year ago) during the spring.

Best prices in the first half of last year were in March and April, when Choice steers at Chicago sold around \$27.40. Many cattle intended for market in those months of this year may miss the truck by 30 to 60 days. It often takes longer than the farmer expects to get cattle finished for market. The extra-cold weather this winter will increase the delay of marketings.

A few guideposts may be helpful in making judgments about prices to be expected for cattle in 1963. The average annual prices for Choice steers at Chicago for the past six years were as follows: 1962 - \$27.67; 1961 - \$24.46; 1960 - \$26.24; 1959 - \$27.83; 1958 - \$27.42; and 1957 - \$23.83.

Show Use Of Simple Tools At Museum

Special demonstrations to show small children in the 5th to 8th grade categories how simple machines work and to get them interested at an early age in technical and scientific matters will be featured every school day through February and March at the Museum of Science and Industry.

Demonstrating the use of the wheel-and-axle, pulley, wedge, screw, inclined plane and lever, the demonstrations will be given at 10:00 and 11:00 a.m. and 1:00 p.m., Monday thru Friday, in the Museum's Little Theater.

They will be informally presented, with pupils from the audience helping the demon-

strator operate each basic tool. One demonstration will show how to lift heavy objects from the floor to higher levels or onto trucks.

So that the function and importance of the tools may be clearly understood, questions will be encouraged at all times during the shows.

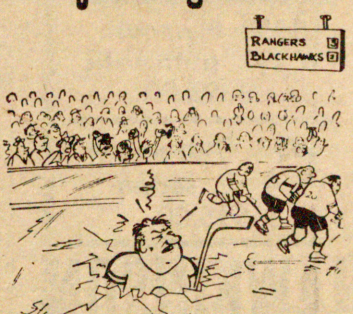

Admission to the Museum and "Simple Machines" demonstrations is free.

Chief Robert Rust Names Officers For Fire Dept.

479-4151

The Mokena Community Volunteer Fire Department held their monthly meeting at the fire house last Wednesday, Feb. 13.

Chief Robert Rust appointed the following officers: Fred Rauch, Jr., assistant chief; Roy Newton, captain; Fred Clark, first lieutenant; Ken Warning, second lieutenant and George Haehnlein, sergeant-at-arms. Special mention was made by Chief Rust regarding calls made by small children on the fire phone in the past month. He also mentioned that on Jan. 23 the fire department was called out in -20 degree weather to a location on Rt. 6, 1 mile west of Marley for a false alarm. Parents are being asked to cooperate with the fire department in reminding their children that using the telephone for amusement is not a very funny business. Certainly, everyone knows the story of the shepherd who cried 'Wolf.' The fire department will answer all calls it receives, but if these calls do continue, it may one day happen that the department will be out to answer one of these false alarms, when an actual fire alarm is turned in.

Another point to be considered, is that the men on the department are all volunteers, the chief said. They have to leave their jobs in order to answer fire calls and sometimes they interrupt a good night's sleep to go out on a call. These men are giving a great deal of time and devotion to their duties and for that they deserve our courtesy, respect and a good night's sleep whenever they can get it.

The Patterson Company notified the department that there has been a 10% raise on acetylene and an 8% raise on oxygen. There has been an excellent turn-out of men on the training nights and it is hoped that the response will remain this high, the chief stated. The department hopes to send two teams to the second annual fireman's bowling tournament, which is sponsored by the Romeoville fire department at the Lemont Bowling Lanes.

The Mokena Library has announced the addition of a number of popular children's classics, which were given to the library by an anonymous donor. Included are most of the rib-tickling Dr. Seuss books and the complete set of Winnie the Pooh, by A. A. Milne.

Many parents have requested these books and the library is happy to be able to put them into circulation. Also included in the donation were several nature books, featuring superb photography of the outdoor scene.

Any area residents who would like to donate books to the library are welcome to do so. The biggest need is for children's books and Mrs. Robert Olson, librarian, will be happy to advise any individual or group on the type of books needed.

The library, whose rent is paid by the Mokena Lions club, is operated by the Mokena Book club. Because funds are limited for buying books, donations are welcome. All area residents are eligible to use the library, which is located on Front Street, one door east of the post office. The hours are 3:30 thru 5 p.m. and 7:30 thru

9 p.m. on Wednesdays.

Miss Madeline Ortega, foreign exchange student at Lincoln-Way high school, from Chile, will be the guest speaker at the meeting of the WSCS of the Methodist church this evening (Thursday) at 8 o'clock. Hostess for the meeting are Mrs. Harold Cooper, Mrs. Wesley Sievert and Mrs. Gary Case.

The Frankfort-Mokena unit of the Homemakers extension assoc. met last Tuesday in the home of Mrs. William Seeman of Frankfort. Safe food handling was the topic of the major lesson, presented by Mrs. Arthur Buske and Mrs. Emil Groth. The minor lesson, "Television - What does it do to and for the family?" was given by Mrs. George Smego. Refreshments were served by the hostess.

The week of Feb. 22 thru March 3 has been designated Girl Scout Cookie week by the Trailways Girl Scout council whose headquarters are in Joliet.

Mrs. Joseph H. Stricker of New Lenox, cookie chairman for Trikenia neighborhood, announces that orders for the cookies will be taken by Girl Scouts from the eight intermediate troops in all three communities included in this neighborhood. Delivery will be made during the week of March 28 thru April 4.

The cookies will be the same as in former years -- five delicious high-quality varieties, sold at 45¢ a box. Profits from the sale will go toward improving and equipping the new Trailways Girl Scout campsite near Ottawa, Ill.

Anyone who is not contacted by a member of one of the troops, can order by phoning Mrs. Albert Janmer, 479-4181; Mrs. William Hanson, 479-5214; Mrs. Emmett Stapleton, 479-4941.

Miss Sharon Cappel has recently been initiated into the Gamma Nu chapter of Delta Zeta social sorority at Eastern Illinois University, Charleston, Ill. Miss Cappel is the daughter of Mr. and Mrs. Wesley Cappel of Cohlwood Estates.

Civic Association Dance Set For Saturday Night

MRS. EDWARD HOVI
Telephone 470-5740

This Saturday, February 23, is the day of the Arbury Hills Civic Association dance. The starting time will be 8 p.m. The cost will be \$1. per couple to be paid at the door the night of the dance. This charge will include free food on a "Help Yourself" basis, and will be a pot luck assortment.

The dance will take place at the VFW hall in Mokena. The hall is on Wolf Road just south of the Rock Island Railroad tracks on the west side of the street.

This will be the only scheduled recreational event before Lent. Those in charge urge that you support your first Civic Association dance; bring your friends.

The three Dens of Cub Scout Pack Number 10 will hold their second pack meeting at the Arbury Hills school on Friday, Feb. 22, starting at 8 p.m. The parents of the boys are all invited to attend. If there are any other boys in the Summit Hill school district who wish to join the Cub scouts, may also attend and join up that night.

There is a newly organized Explorer Scout Troop, No. 9, sponsored by the Tinley Gardens Homeowners Association. The advisor-director of the group is Howard Thacker of Tinley Gardens who is, at present, holding the meetings at his home.

Explorer Scouts consist of boys of high school age. There are five boys entered as charter members of the group, but a total of twenty-three boys were present for the first meeting at Mr. Thacker's home.

The Summit Hill Parent-Teacher Group held their open house last Thursday evening at the school. One hundred and two signed the guest book. In addition there were approximately 30 children present.

The attendance award was given to the fourth grade under Mrs. Gibbs, their teacher. This award is given to the room which has the greatest representation of parents present for the Parent-Teacher meetings.

All of the classrooms were open for inspection by the public, and all but two of the teachers were present to answer questions. There were also papers on display so that parents could see the progress made by their children.

Refreshments were served by the fourth grade mothers in the lobby.

The next meeting of the Parent-Teacher Group will take place at the school on Thursday evening, March 8. The meeting will include a short business meeting during which there will be the establishment of a nominating committee for the coming elections.

After the business meeting there will be a panel discussion by Supt. H. James Wrath; Miss Anderson, one of the first grade teachers; Mrs. Mac Donald, the other first grade teacher; Mrs. Corp, the second grade teacher; and Mrs. Schilling, the third grade teacher.

The panel discussion will be on the topic "On the Teaching Your Child to Read." This will be an interesting discussion by four persons who have a firsthand knowledge of the subject.
